

ABSTRACT

APP: GAMEzo

GAMEZO is android app with 3 different games. Each game has different strategy to win.

- Hooty Fish
- Roshambo
- Battle Drive

Battle Drive is a mini game in which a player should handle gravity and eat mini balls. Player gets 10 points for eating yellow ball, 20 for green. Each player can have 3 lives, player loses a life if fish eats red ball. If player lose 3 lifes game ends, redirecting to final score screen.

Rashambo is a simple rock paper scissor. Player can select any of rock or paper or scissor and computer select randomly. If u choose Rock, you will win if computer choice is paper and lose if computer choice is scissor. If u choose Paper, you will win if computer choice is Rock and lose if computer choice is Scissor. If u choose Scissor, you will win if computer choice is Paper and lose if computer choice is Rock. player can view wins, losses, ties games, confidence%, chances for next computer choice directly on screen, clear all scores. Player can go back to main menu using X on top right.

Battle Drive is a mini game of balance and timing. The player should fight gravity and deal with an X and a Y and then kill the beast. If the helicopter collides with any obstacles, the game is stopped and will get back to main menu. The more the player is able to keep the helicopter flying without collision, the more score he will gain. This game is very simple to start, play and terminate.
